

*Lines measure 2cm, 5cm, 7cm and 9cm.*

*Children draw lines of the correct length.*

*The measurements of the classroom objects will depend on the individual items that children have chosen.*

*The train is the odd one out because it has not been placed at 0 on the ruler. All of the other items start at 0cm.*

*The possible measurements of the longest animal are: 23cm, 24cm, 25cm (half cm measurements are also correct but not to be expected).*

*The shortest animal could be: 13cm, 14cm, 15cm.*

*The other animals could be: 14cm, 15cm, 16cm, 17cm, 18cm, 19cm, 20cm, 21cm, 22cm, 23cm, 24cm.*
